

Request to change to the 2021 version of the examination regulations

Name: _____

Matriculation Number: _____

Study Programme: _____

Phone Number: _____

I hereby apply to change to the examination regulations version (PO 2021) within my degree program.

I have taken note of the following information:

- This application can only be submitted if there are no outstanding assessments of examination performances at the time of application and no examinations that lie in the future have been registered. Applications that do not meet these criteria will be returned unprocessed.
- If only examinations in the Studium Integrale and/or the respective thesis have to be taken, a change to the examination regulations version 2021 is no longer possible.
- As of the application date, examinations can no longer be registered in the previous examination regulations version (PO 2015).
- Examinations in the 2021 version of the examination regulations can only be registered after the entire process for transfer to the 2021 PO has been completed. This process may take several weeks.
- The change to PO 2021 cannot be reversed.
- The transfer of examination performances takes place according to the usual regulations (cf. § 11 of the examination regulations of January 28, 2021). The waiver of the transfer of modules is not possible.
- Courses and examinations offered in the degree programs according to the PO 2021 will be built up successively. Examinations and courses intended for higher semesters may therefore only be offered in later semesters.

Date, Signature

(May be omitted if submitted via WiSo-Inbox)
