## 1 Social sciences

The bachelor's programme of social sciences comprises the fields of political science, sociology and social psychology.

From a theoretical and empirical perspective, political science examines the order and regulation of social life by generally binding decisions in the (sub-)national, European and international context (and their interactions). Sociological issues deal with the social interrelations within and between communities, companies and organisations. The subject of social psychology is the experience and behaviour of people in the social context.

### 1.1 Contents and study objectives

The specific profile of the graduate exists in the combination of social science and economics basics, with ensuing content-related focus on sociology/social psychology or political science, accompanied by methodical-analytical abilities of formal analysis of social science issues. The graduates can critically assess empirical studies and evaluations and in the process can also consider economic, social, political and psychological perspectives and interdependencies. They are in a position to display corresponding results for the target audience.

Graduates have competences at level 6 of the German Qualifications Framework respectively the Bachelor level of the German Qualifications Framework for Higher Education Qualifications. Their specific formulation as *Intended Learning Outcome* is:

Graduates...

...identify sociological problems and apply sociological basic terms and theories to the analysis of social issues.

...comprehend fundamental sociological as well as socio-psychological theories and describe phenomena.

...know key terms of political science and distinguish theory-driven approaches explaining issues of political science.

...know topics from particular subareas of political science and evaluate the reach and validity of theoretical and methodical approaches critically.

...understand and use fundamentals of empirical social research as well as mathematical and statistical analytical methods of social sciences.

...identify fundamentals of qualitative methods of sociology and political science.

...comprehend and employ fundamental micro- and macroeconomic issues.

...transfer socio-scientific theories and/or statistical methods based on questions of sociology and social psychology and evaluate the adequacy of different methods.

- ...use their acquired knowledge to analyse specific areas of social sciences.
- ...employ theories and methods of socio-scientific data collection and data analysis and identify possible sources of error.
- ...apply their knowledge to practice-oriented situations respectively use the presented methods in practical exercises.
- ...collect, systematize and specify both literature and data material for a scientific work and write it independently under the guidance of a tutor.
- ...work expediently and cooperatively in teams.
- ...evaluate and discuss German and English socio-scientific literature.
- ...discuss own results with tutors and other students.
- ...justify and evaluate independently developed positions and derive recommendations for action.
- ...present socio-scientific topics and discuss them against the background of academic and non-academic fields of action.
- ...design their learning and work processes independently.
- ...advocate for responsible scientific behaviour regarding social, ethic and economic criteria.
- ...evaluate their own action processes in self- and external reflection and identify development potentials.

The degree course in Cologne can also include, in addition to focus on social sciences, economic, socio-psychological and other interdisciplinary areas. The connection between scientific foundation and practical orientation as well as the option to set individual priorities in the degree course, both, afford the widest variety of career prospects inside and outside the country. In the bachelor's programme, skills that prepare for a number of professional fields are acquired. These skills are not just of superior value in the private sector, but also open up other, specific professional fields for graduates: Graduates with a strong political science profile mainly find employment in institutions, parties and interest groups like citizen initiatives, associations, foundations, in ministries, public departments, supranational institutions and international organisations. Graduates with a strong sociological/socio-psychological profile have career prospects in the area of market and social research, statistical offices, social planning, public relations and human resource development as well as in non-profit-organisation, associations and the media.

With a good bachelor's degree and a corresponding prioritisation, admission in one of our master programmes "Political Science" (Master of Arts) or "Sociology and Social Research" (Master of Science) can be pursued.

## 1.2 Requirements

Successful students will have the following subject-related, methodical and personal strengths and aptitudes:

- good mathematical and analytical skills,
- ability to think abstractly and conceptually,
- good communication skills in German and English,
- ability to perform independent, goal-driven and result-oriented work,
- motivation and the ability to work in a team,
- a keen interest in issues from social sciences and economics.

At the beginning of the course, no knowledge of English is required. Applicants with a foreign higher education entrance qualification must, however, prove that they have a good knowledge of German (more detailed information can be obtained from the International Office).

Students with insufficient knowledge in mathematics (e.g. only basic course in high school) are recommended to attend a preparatory module in mathematics which is offered in blocked form before the regular lectures begin. For further information, have a look in the corresponding module description.

## 1.3 Programme structure and sequence

The bachelor's programme of social sciences comprises 180 credit points, is designed for a standard study period of six semesters and is made up of the following four sections:

The Core and Advanced Section with 108 credit points (LP) comprises basic modules from the domains of political science, sociology, socio-psychology and economics, as well as modules with methodical contents. All modules in this section are compulsory.

The Supplementary Section with 24 LP contains supplementary modules of methods, politics, sociology and socio-psychology. In the Supplementary Section of social sciences, you can choose among different modules of politics, sociology and socio-psychology and Studies Abroad in Social Sciences.

The Specialisation Section with 18 LP comprises the main modules, which can be selected from the areas of politics, as well as sociology and socio-psychology. The Studium Integrale must be substantiated with 12 LP. The bachelor thesis in the degree course of social sciences and colloquium with 18 LP form the last section.

#### 1.4 Study Abroad Option

The WiSo Faculty offers a broad range of study abroad options within an excellent network of prestigious partner universities worldwide. The so-called Study Abroad Programme (STAP) includes ERASMUS exchanges and provides an opportunity for a single-term stay at one of the WiSo Faculty's partner universities. Successful STAP applicants benefit from direct contact and organisational support at the partner university as well as support in the organisation of the semester abroad by the International Relations Center (ZIB WiSo). Additionally, they are exempt from paying tuition fees there. The range of universities available depends on the bachelor course on which the student is enrolled – the possible options are listed in the WiSo Exchange (WEX) (access through the student's UoC account only), along with detailed information on each university.

In addition to these options offered by the Faculty, bachelor students can also apply for a non-WiSo exchange, offered by Dezernat 9 – Internationales (Central International Office of the University of Cologne) within the 'fakultätsübergreifende Partnerschaften' framework. Further possibilities are going abroad as a freemover (i.e. as a student who organises his or her stay abroad individually) or participating in short courses or summer schools offered under separate terms and conditions. Social science students can also apply to the Short Programme for Sociology in cooperation with the University of Utrecht.

### 1.4.1 The Faculty's Study Abroad Programme (STAP)

Bachelor students should plan their application for a term abroad at the beginning of their bachelor studies. The main selection round for STAP takes place once a year, ending on 15<sup>th</sup> January. It allows for an application either for fall term or spring term of the following academic year. Detailed information on the selection criteria and the best preparation for a STAP application can be found [online](#).

If there are still places available after the main selection round has been completed, another small secondary selection round will be offered between April and June 1<sup>st</sup>. In this round, students can only apply for the following summer semester.

#### STAP Bachelor – main selection round (fall term and spring term)

\* Alternative offer: if no offer can be given at one of the five preferred universities and if slots at other universities are available.

\*\* End of main selection round. In case any exchange slots become available after 15 March, these slots will be made available in a secondary selection round.

#### STAP Bachelor – secondary selection round (for spring term only)

Please note: there is no guarantee that a secondary selection round will take place every year, nor should a wide range of exchange opportunities be expected.

\* Deadline for handing in FILTERtest results (if taken until 1 June): 15 June. \*\* Alternative offer: if no offer can be given at one of the five preferred universities and if slots at other universities are available.

#### **1.4.2 Credit transfer options from studies abroad**

The WiSo Faculty has put a lot of emphasis on internationalisation in the design of its bachelor programmes, offering broad credit transfer options for all kinds of study abroad options. Each bachelor course includes at least one "Studies Abroad" module, with a broad range of courses suitable for credit transfer. In addition, a single course-to-course credit transfer can be considered. Moreover, students have the option of crediting courses from the semester abroad as part of their Studium Integrale.

For any questions regarding credit transfer, students can contact the [ZIB WiSo](#) or the [WiSo Credit Transfer Center](#).

#### **1.5 Module study plan sequence**

Due to several factors you need to plan your studies more and more individually. This is caused for example by the fact that some Specialisation modules cannot be finished within one term or are solely offered in the winter or summer term. Thus, the following sequences are only recommendations, from which you can or have to diverge depending on your individual study plan.

2 This module will be offered in Winter term 2022/23 once in addition to the planned scheduling for the summer term.

### 1.5.1 Study plans including a semester abroad

#### a) Economy I & Study Direction: Political Science

The fifth semester is mostly suitable for studying abroad.

In view of the model study plan sequence and the credit transfer options in the supplementary section (12 CP) as well as in the Studium Integrale (12 CP) the two parts of the Studium Integrale and one of the Supplementary Modules (from the fourth semester) should be positioned in the fifth semester in case of an **exemplary** stay abroad. The Advanced Module Economics (Social Science) as well as the Specialisation Module Seminar Political Science I can be moved to the fourth or sixth semester.

#### b) Economy I & Study Direction: Sociology & Social Psychology

The fifth semester is mostly suitable for studying abroad.

In view of the model study plan sequence and the credit transfer options in the supplementary section (12 CP) and in the Studium Integrale (12 CP) the two parts of Studium Integrale should be positioned in the fifth semester in case of an **exemplary** stay abroad. The Advanced Module in Economics (Social Science) can be positioned in the sixth semester. The Specialisation Module Applied Methods of Sociology, which has a duration of two semesters, can be positioned in the third semester. The Core Module Microeconomics (Social Science) could already be completed in the second semester. The two Supplementary Modules, which are scheduled for the fifth semester, would be completed with the module Studies Abroad in Social Sciences.

#### c) Economy II & Study Direction: Political Science

The fifth semester is mostly suitable for studying abroad.

In view of the model study plan sequence and the credit transfer options in the supplementary section (12 CP) and in the Studium Integrale (12 CP) the two parts of the Studium Integrale and one of the Supplementary Modules should be moved in the fifth semester in the case of an **exemplary** stay abroad. The Specialisation Module can be positioned in the fourth semester. The Core Module Sociology II, which is only offered in winter semester, could already be completed in the third semester.

#### d) Economy II & Study Direction: Sociology & Social Psychology

The fifth semester is mostly suitable for studying abroad.

In view of the model study plan sequence and the credit transfer options in the supplementary section (12 CP) and in the Studium Integrale (12 CP) the two parts of the Studium Integrale should be positioned in the fifth semester in case of an exemplary stay abroad. The Specialisation Module Seminar Sociology/Social Psychology can be moved to the sixth

semester. The Specialisation Module Applied Methods Sociology, which has a duration of two semesters, could already be completed in the third and fourth semester. The two Supplementary Modules, which are scheduled for the fifth semester, would have to be completed with the Module Studies Abroad in Social Sciences.

#### **e) General remarks**

For questions about studying abroad the [ZIB WiSo](#) is at your disposal.

Additionally, it is always possible not to request a semester on leave (*Urlaubssemester*) if you spend a semester abroad such that examinations can be taken upon return to the University of Cologne (if it is individually feasible).

#### **1.6 Modules with mid-term examinations**

Some modules have courses that only run for half a term and usually with twice the normal number of classes. For these modules, the term is divided into two roughly equal halves. In the fall, the mid-term usually ends at the beginning of December; in the spring, it is usually in the middle or at the end of May. Often, the examinations for these courses are held mid-term, enabling students to reduce their examination load at the end of term.

The information in the campus management system (KLIPS) regarding the dates of courses and examinations is relevant in this context.

### 1.7 Calculation of the overall mark

The marks for each examination are determined by the respective examiners. The overall mark for the bachelor degree combines the marks for the various sub-categories, weighted based on the respective number of credit points attainable and each sub-category's contribution towards the overall mark for the examinations for which marks are given. The marks for the sub-categories are calculated as the mean of the examination results in line with the weighting for each examination in terms of the credit points it contributes to the overall mark for the examinations in the respective category for which marks are given. If the result of a module examination is calculated based on several components, the mark is calculated based on a weighting given in the module description. The overall mark for the degree is calculated as the weighted arithmetic mean of the marks for the subject categories and the mark for the bachelor thesis. On the Social Sciences programme, the weighting for the contributions to the overall mark are as follows:

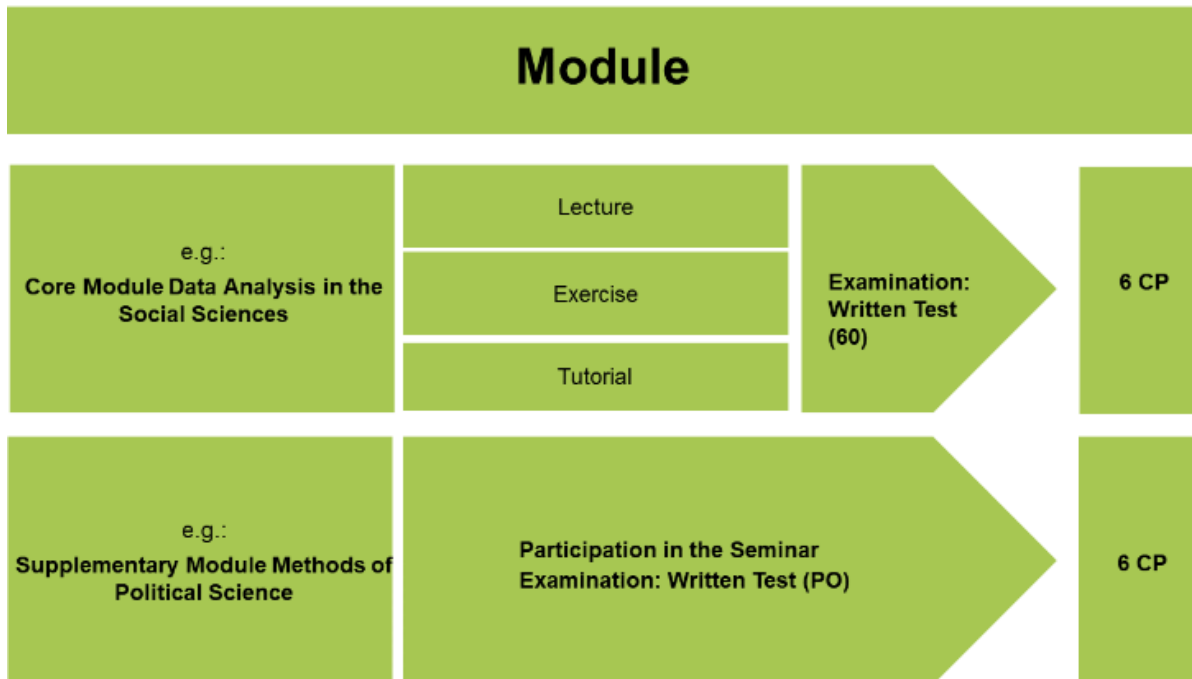

- a) Mark for Core and Advanced Section: 108 of 168 CPs
- b) Mark for Supplementary Section: 24 of 168 CPs
- c) Mark for Specialisation Section: 18 of 168 CPs
- d) Mark for Bachelor Thesis: 18 of 168 CPs.

### 1.8 Modularity

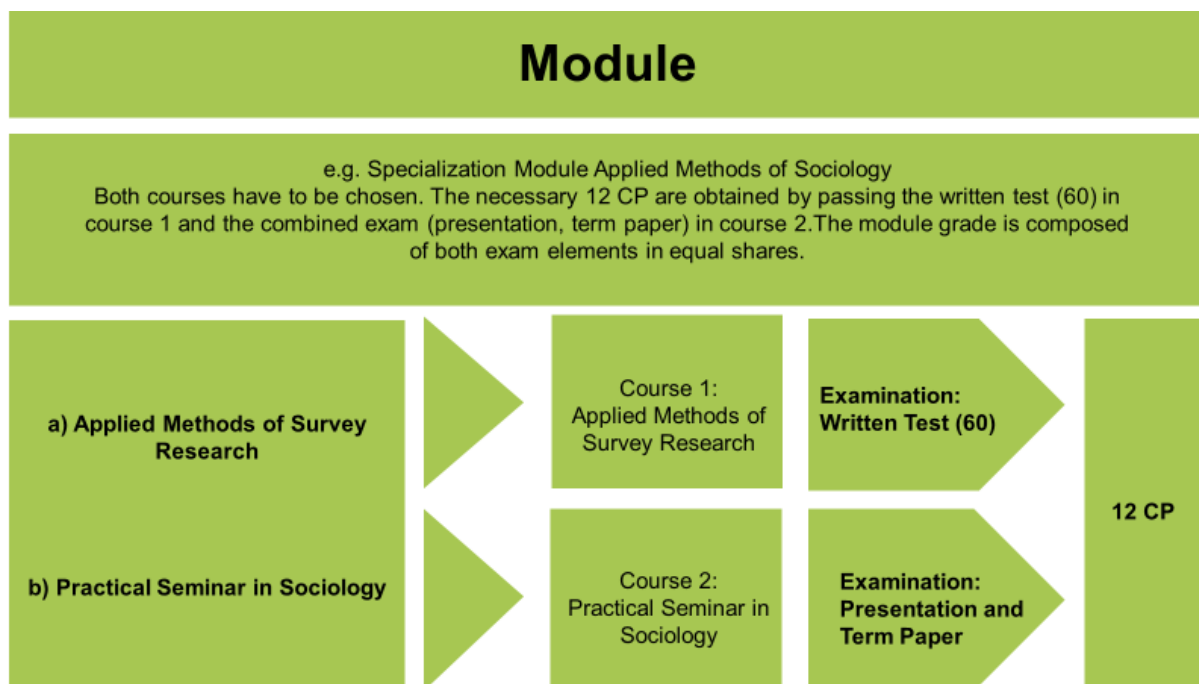

The subject categories on the bachelor programmes are divided into modules, the contents of which are presented in the module descriptions. The bachelor module catalogue can be viewed in the [download section](#) of the WiSo Student Services ("WiSo-Studienberatungszentrum") website. Students who pass the necessary examinations are awarded credit points as proof of their successful participation in a module. The module examinations are taken at regular intervals during the programme. Each module consists of various parts and can usually be completed in one or two terms (see the "Duration" section in the module description). A module can consist of lectures, exercises and/or tutorials on the same subject. There are also modules that only comprise one type of class, e.g. a seminar. In some cases, modules offer students a choice between various courses and they are required to take one or more of them. In these cases, the examination can consist of two components (written test in course 1 and a term paper in course 2) or take the form of one, combined examination (a written test covering the content of courses 1 and 2).

When planning your studies, please remember that not every module is offered every term. To find out whether a module is being offered, refer to the "Module availability" section of the module description.

The following examples are to be understood exclusively as illustrations of the individual scenarios; they do not necessarily include modules of the present study programme.

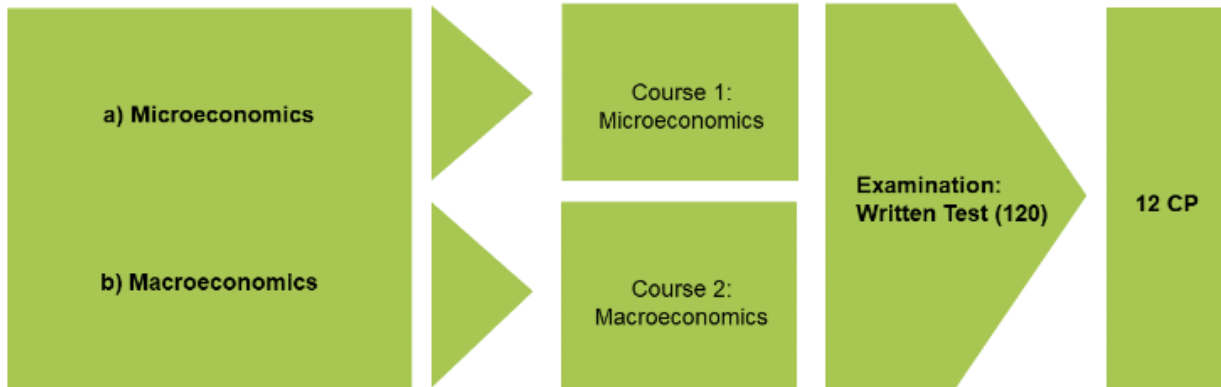

Scenario 1: The module comprises additional courses on the same topic.

Scenario 2: Several courses must be combined and each one concludes with a separate examination. Credit points are awarded after passing both tests.

## Module

e.g. Core Module Fundamentals of Economics  
Both Courses have to be chosen. The necessary 12 CP are obtained by passing a joint written exam (120) in which the content of both courses is examined.

Scenario 3: Several courses are combined and at the end a test on the contents of all courses is completed successfully and the CP are thus acquired.

### 1.9 Rules for failed attempts

Students may retake module examinations that they have failed. The number of attempts is limited to three per module.

In addition, additional three resit attempts can be granted to students at any point of the programme. Students who have accumulated at least 140 credit points are granted a further additional attempt. If a student fails an examination in the three additional attempts and the extra attempt for students with 140 points or more, they are deemed to have failed the programme at the final attempt. However, students may only be eligible for additional attempts beyond the initial three attempts if none of the first three examination attempts were failed due to cheating or to an offence. If the candidate fails a module examination three times, he or she will receive a written notification informing him or her of the options available. We recommend all students who fail the initial three attempts to seek advice from WiSo Student Services (“WiSo-Studienberatungszentrum”) before embarking upon an additional attempt.

Where a module examination consists of several components, the candidate must obtain a “bestanden” (pass) mark, or at least an “ausreichend (4,0)” (sufficient) mark, in all of the examination components. All components marked “mangelhaft (5,0)” or “nicht bestanden” (fail) must be retaken.

It is not possible to retake module examinations that have already been passed.

A failed bachelor thesis can be retaken once, with a new topic. Students must register for their second attempt within six months of the result of their first attempt being announced.

## 2 Support for students

### 2.1 Course registration in KLIPS 2.0

KLIPS 2.0 is the central campus management system of the University of Cologne. At the WiSo faculty, KLIPS 2.0 serves as a student organization tool. Students should use it as an online course catalogue, for registration and deregistration of courses and examinations, as well as an overview of the complete study programme and calendar. Information on current dates and deadlines of the WiSo faculty, as well as video tutorials and FAQs about KLIPS can be found on the homepage of WiSo-KLIPS-Support. If you have further questions, feel free to contact WiSo-KLIPS-Support via [e-mail](mailto:klips-wiso@uni-koeln.de) (klips-wiso@uni-koeln.de). For account questions, contact the central [KLIPS support](#).

### 2.2 Exam registration in KLIPS 2.0

Examinations on the various programmes are always managed via KLIPS 2.0. Students must register for them within specified deadlines. Please note that registration for courses without restriction on participation via KLIPS and registration for the corresponding module examinations are two completely separate processes. In the case of courses which are subject to a restriction on participation, an examination registration is generally only possible if a registration for the course has been submitted beforehand. Most examinations in written test form are offered twice per term. Often, this will be to “space out” the dates, i.e. students can choose the date that best fits their examination schedule. In some cases, however, the second examination may be a genuine repetition of the first, depending on the department/institute concerned.

All WiSo Faculty examination candidates are entitled to see their examination papers after they have been marked. For more information, please visit the WiSo Examination Office website.

### 2.3 Subject-specific and examination advice

General advice for students, especially regarding study options and programme requirements, is available from WiSo Student Services (“**WiSo-Studienberatungszentrum**”) for all programmes at the WiSo Faculty. The WiSo Student Services also offer subject-specific recommendations for students’ study plans for the first semester plus information on how the individual programmes are structured. The WiSo Student Services are also the first place students should turn to if they have any other questions or problems concerning their studies. The centre can be contacted by telephone, in person or by email. The opening hours and contact data can be found on the corresponding webpage.

**Subject-specific advice** is provided during the designated times by the University’s faculty members and associated teaching staff (“akademische Mitarbeiterinnen und Mitarbeiter”) involved in the teaching on the programme. The designated times are announced by means of notices in the institutes and on the departments’/institutes’ websites.

Legally binding information concerning examinations and examination procedures is provided by the WiSo Faculty Examination Office. It also issues transcripts of records in German and English, ranking certificates and letters of assignment to the appropriate term of the programme. All the necessary information, contact details and opening hours can be found on the corresponding webpage.

### 2.4 Academic Working

To support the academic writing of term and final papers, the University of Cologne offers various courses to practice the process of academic writing by students. These include:

a) Writing advice/consultation

The Kompetenzzentrum Schreiben, the Professional Center, the Kölner Studierendenwerk and the programme SchreibArt offer advice as well as courses related to the issues that arise when writing an academic paper.

b) Literature research

The university library offers various courses especially for researching literature.

c) Text processing and literature administration

The Regionales Rechenzentrum provides courses regarding text processing and literature administration.

Students can register for the courses of the Professional Center and the SchreibArt programme in the **Studium Integrale** under „Kompetenzen für das Studium“ (competencies for studies). There are even more offers made by the WiSo Faculty that can be elected in the **Studium Integrale**. Hence, these courses can be credited for your studies.

## 2.5 Other sources of information and advice

International students who study at the WiSo Faculty for part of their programme can turn to the International Relations Centre (“Zentrum für Internationale Beziehungen” or “ZIB”) for help with any questions they have. Cologne University students preparing to study abroad can also contact the ZIB for support. The Centre also runs a variety of summer schools, short programmes and Business English courses. The services, courses and people to contact can be found on the corresponding webpage.

The Faculty’s Credit Transfer Centre (“Zentrum für die Anrechnung auswärtiger Leistungen”) is responsible for recognising credits accumulated in other institutions. This applies both to credits students have gained at other higher education institutions in Germany or abroad prior to studying at the WiSo Faculty, and to (advance) transfer of credits that students plan to accumulate abroad or have already accumulated abroad as part of a WiSo Faculty programme. This system eliminates the need to make individual inquiries to departments/institutes and examination offices. Students can find out everything they need to know about the transfer process on the corresponding webpage.

The WiSo Career Service offers advice and support for students from the WiSo Faculty looking for an internship or profession that is right for them. It also helps them as they plan their career and apply for jobs. In addition, the WiSo Career Service organises seminars, presentations and special events in cooperation with employers and external and internal experts. It also works with other partners in the Faculty and the University to support and guide students as they decide on a career path.

The WiSo IT Service runs regular courses dealing with standard software and field-specific programs.

In case of study-related or personal difficulties, the psychosocial counselling (“Psycho-Soziale Beratung”) of the Kölner Studierendenwerk can be called upon. In addition to psychological and social counselling, it also offers writing and learning counselling and support for pregnant women and students with children.

As a further offer, there is Nightline Cologne, the listening and information telephone of students for students. It is available to all students at Cologne universities and colleges.

The WiSo student council represents the interests of all students from the WiSo faculty. In addition to advice from fellow students it also provides a variety of useful services for studying at the WiSo faculty. Any information can be found at [\*\*wiso-buero.uni-koeln.de\*\*](http://wiso-buero.uni-koeln.de) or by directly writing an email to [\*\*wiso-buero@uni-koeln.de\*\*](mailto:wiso-buero@uni-koeln.de).

### 3 Module tables and descriptions

#### 3.1 Core and Advanced Section

In accordance with Section 30(1), No. 1 of the Examination Regulations, students must accumulate 108 CPs in the Core and Advanced Section.

Group	Module	CP	CC/EC	Reqd. CP	
Sociology and Social Psychology	Core Module Sociology I (Bachelor)	9	CC	24	
	Core Module Sociology II (Bachelor)	9	CC		
	CM Introduction to Psychology	6	CC		
Political Sciences	CM International Relations <sup>1</sup>	6	CC	30	
	CM Comparative Political Economy <sup>2</sup>	6	CC		
	CM Comparative Analysis of Political Institutions <sup>3</sup>	6	CC		
	CM European Politics <sup>4</sup>	6	CC		
	Core Module Political Science V (B.Sc.)	6	CC		
Methods	CM Data Analysis in the Social Sciences	6	CC	27	
	Advanced Module Statistics (SoWi)	6	CC		
	Core Module Quantitative Methods	9	CC		
	Advanced Module Statistics (Social Sciences): Advanced Data Analysis	6	CC		
Economy I	Core Module Microeconomics (SoWi) <sup>5</sup>	9	CC	27	27
	Core Module Macroeconomics (SoWi) <sup>5</sup>	9	CC		
	Advanced Module Economics (SoWi)	9	CC		
Economy II	CM Fundamentals of Economics	12	CC	27	
	CM Introduction to Business Administration	6	CC		
	Core Module Social Economy <sup>6</sup>	9	EC		
	Advanced Module Economics (SoWi) <sup>7</sup>	9	EC		

<sup>1</sup> The registration for the examination is not possible if the examination for the compulsory module "Core Module Political Science I (Bachelor)" has already been successfully completed.

<sup>2</sup> The registration for the examination is not possible if the examination for the compulsory module "Core Module Political Science II (B.Sc.)" has already been successfully completed.

<sup>3</sup> The registration for the examination is not possible if the examination for the compulsory module "Core Module Political Science III (B.Sc.)" has already been successfully completed.

<sup>4</sup> The registration for the examination is not possible if the examination for the compulsory module "Core Module Political Science IV (B.Sc.)" has already been successfully completed.

<sup>5</sup> This module was offered for the last time in the academic year 2020/2021.

<sup>6</sup> This module will be offered for the last time in 2023/2024 in accordance with the planned schedule.

<sup>7</sup> Beginning with the academic year 2024/2025 this module becomes a compulsory examination.

MODULE CATALOGUE - SOCIAL SCIENCES - BACHELOR OF SCIENCE

valid for students of the ER 2015 (enrolment for winter semester 2020/21 at the latest)

### 3.2 Supplementary Section

In accordance with Section 30(1), No. 2 of the Examination Regulations, students must accumulate 24 CPs in the supplementary section.

Group	Module	CP	CC/EC	Reqd. CP
Methods	Supplementary Module Methods of Political Science <sup>1</sup>	6	EC	6
	Supplementary Module Methods of Sociology <sup>2</sup>	6	EC	
Social Sciences	SpM Seminar Culture/ Values/ Cohesion	6	EC	18
	Supplementary Module Social Psychology <sup>3</sup>	6	EC	
	SpM Political Institutions	6	EC	
	SpM Health Systems	6	EC	
	SuM Solidarity-based Economics	6	EC	
	Studies Abroad Social Sciences	12	EC	

<sup>1</sup> Beginning with the academic year 2024/2025 this module becomes a compulsory examination.

<sup>2</sup> This module will be offered for the last time in 2023/2024 in accordance with the planned schedule.

<sup>3</sup> This module will be offered for the last time in 2022/2023 in accordance with the planned schedule.

### 3.3 Specialisation Section

In accordance with Section 30(1), No. 3 of the Examination Regulations, students must accumulate 18 CPs in the specialisation section.

Group	Module	CP	CC/EC	Reqd. CP
Sociology and Social Psychology	CM Ethics and Fundamentals of Academic Work in Social Sciences <sup>1,2</sup>	6	CC	18
	SpM Practice Seminar Sociology/Social Psychology <sup>1,2</sup>	6	CC	
	SpM Seminar Education/ Work/ Organisation	6	EC	
	SpM Seminar Family/ Ageing/ Migration	6	EC	
	SpM Seminar Actions/ Norms/ Networks	6	EC	
	SpM In-depth Seminar Sociology/ Social Psychology	6	EC	
Political Science	Specialization Module Seminar Political Science I	9	CC	18
	Specialization Module Seminar Political Science II	9	CC	

<sup>1</sup> The registration for the examination is no longer possible if the examination for the compulsory module "Specialization Module Applied Methods of Sociology" has been successfully completed beforehand.

<sup>2</sup> This module will be offered for the first time in the academic year 2022/2023 according to the planned schedule.

### 3.4 Studium Integrale

All of the Faculty's bachelor programmes include an interdisciplinary component, known as the Studium Integrale, in which students accumulate 12 credit points. The Studium Integrale is a university-wide and interdisciplinary component of the courses of study in which academic and professional competences are imparted. The Studium Integrale has both theoretical and practical content, enabling students to focus on more academic aspects or topics related to their future careers enhancing their employability. It aims to teach and develop skills that go beyond subject-specific knowledge or that are related to basic academic and personal traits: scientific curiosity, systematic and analytical thinking, and ability to deal with complexity, a solution-minded outlook plus other abilities such as teamwork and foreign language skills.

The Studium Integrale courses are run jointly by the faculties and the University's Professional Centre. They enable students to pursue their own interests in more depth, gain an insight into other subjects and departments, attend courses dealing with issues of relevance to society, acquire skills relevant to their future careers and attend language classes. The "Universitas" segment offers formats especially designed for the Studium Integrale, such as lecture series on societal issues with related workshops. In addition, the Studium Integrale offers students assistance with their learning and studying, helping them with such questions as how to write an academic paper or how to conduct literature reviews. Periods of training abroad and work experience can also be credited in the Studium Integrale. The Studium Integrale carries 12 credit points in total and formally counts as a module. There is no restriction on the number of attempts possible for Studium Integrale examinations.

Any credit points attained in the Studium Integrale over and above the 12 credit points specified in the study structure are shown on the transcript of records.

### 3.5 Bachelor Thesis

The bachelor thesis carries 12 CPs and is written at the end of the programme. Its aim is to illustrate that the candidate is capable of working and reflecting independently on a specific problem related to the subject matter covered on the programme, using the necessary methods and within a specified period. The topic of the bachelor thesis in the degree course of Social Sciences must be taken from one of the groups in the Supplementary and Specialisation section. The evaluation includes a mandatory thesis-seminar amounting to 6 CPs. At the right time before the start of each semester, the examiner determines the conditions which are applicable with respect to the thesis-seminar for all bachelor theses registered in this semester. The bachelor thesis can also be written in the form of a group work, if the contribution of each individual examinee can be clearly differentiated and evaluated. Individual contribution can be attributed on the basis of objective criteria, which enable clear differentiation, for example by specification of sections, page numbers or emphases on content. The overall effort required for a group work must extend appropriately beyond the requirements related to an individual task. Depending on the degree of difficulty and content, group work for the individual(s) must be measured such that it corresponds to the requirements for an individual and independent exam performance. The individual contribution of each individual must meet the requirements of a bachelor thesis.

At least 100 credit points should have been acquired to register for a bachelor thesis. The working time for the bachelor thesis is a maximum of 12 weeks starting with the disclosure of the topic. The bachelor thesis should basically not exceed 40 pages. If all the examinations besides the bachelor thesis have been taken, then the bachelor thesis must be officially started within one year. Detailed and additional information on the bachelor thesis is available in the examination regulation.

### 3.6 Module Descriptions

#### 3.6.1 Preparatory Module

Preparation Module Mathematics					
Module code	Workload	ECTS credits	Module language	Module availability	Duration
	180	none, school's additional offer	German	every term	1 term
1	<b>Courses</b> Preparation Course for Mathematics		<b>Contact hours</b> 60 h	<b>Self-Studies</b> 120 h	<b>Course Language</b> German
2	<b>Learning Objectives</b> Students... ...repeat and apply the essential learning content of mathematics, which they have learned in school and is essential for the Bachelor programme. ...complement their school's knowledge relating to topics that were not part of exams or the schedule and apply that knowledge.				
3	<b>Module Content</b> <ul style="list-style-type: none"> <li>• formal/technical calculating/arithmetic</li> <li>• vector and matrix algebra</li> <li>• functions, sequences and marginal values</li> <li>• differential calculus for functions of one variable</li> <li>• integral calculus for functions of one variable</li> </ul>				
4	<b>Teaching and learning methods</b> lecture with integrated exercise				
5	<b>Module entry requirements</b> No recommendations				
6	<b>Mode of end-of-module examination</b> none				
7	<b>Prerequisites for awarding of credit points</b> no awarding of ECTS credits, school's additional offer				
8	<b>Other programmes that use the module</b> Bachelor of Science Business Administration: Core and Advanced Section Bachelor of Science Economics: Core and Advanced Section Bachelor of Science Economics and Social Sciences: Core and Advanced Section Bachelor of Science Social Sciences: Core and Advanced Section				
9	<b>Module Manager</b> Dr. Christoph Scheicher				

<b>10</b>	<b>Miscellaneous</b> <ul style="list-style-type: none"><li>• The participation in the preparation course is optional and is recommended to students who chose basic course in Mathematics in school or did not gain good results in the advanced course.</li><li>• The preparation course normally takes place as block course in the month before the lecture starts</li><li>• An application is not required.</li></ul>

<b>8</b>	<b>Other Programmes that Use the Module</b> Bachelor of Science Sozialwissenschaften: Core and Advanced Section				
<b>9</b>	<b>Module Manager</b> Prof. Dr. Andreas Fügner				
<b>10</b>	<b>Miscellaneous</b> Students will work through the contents of the course on their own by watching short videos, working on practical examples and reading through the provided e-books. They will apply their newly-acquired knowledge in integrated online exercises, and check their learning progress after each course module by taking an online test. Except for the written end-of-module examination, the entire course will be online-based. The content will be taught through videos. Students will independently work on integrated exercises. Tests will be conducted online.				

<b>Core Module Social Economy</b>					
<b>Module Code</b>	<b>Workload</b>	<b>ECTS Credits</b>	<b>Module Language</b>	<b>Module Availability</b>	<b>Duration</b>
1344BMGW00	270h	9	German	every 2nd term - summer term	1 Term
<b>1</b>	<b>Courses</b> Corporate Morphology of the Social Economy in Support Diversity		<b>Contact Hours</b> 30h	<b>Self-Studies</b> 240h	<b>Course Language</b> German
<b>2</b>	<b>Module Content</b> A. Basics: 1. Concepts of business ethics against the background of business ethics models in the light of the history of general ethics (Application: Entrepreneurial demography management as challenge and opportunity) 2. Economics, economization, economism; effectiveness, efficiency, profitability 3. Social economy versus private sector; objective dominance versus formal target maximization; for profit/non for profit B. Diversity of enterprise types in the social market economy - Diversity of public service enterprises 4. Public enterprises as instruments of public services 5. Independent bodies of the non-profit and tax-exempt social economy of the so-called third sector 6. Cooperative enterprises 7. Cross-cutting topic: Corporate Social Responsibility and Corporate Citizenship (application: problems of social accounting (measurement problems of socially extended accounting)) C. The Economic and Labour Markets of the Types of Enterprises (practical presentations) D. Reading phase (accompanied by tutorials) E. Discussion of mandatory reading				
<b>3</b>	<b>Learning Objectives</b> Students... ... recognise the diversity typical of a company as the complexity of economic activity in the context of the social market economy. ... outline the main features of the model diversity of ethics, business ethics and corporate ethics. ... understand the pluralism of the public sector (public, free, cooperative bodies) and give concrete expression to this in practical examples (e.g. banking sector or hospital sector). ... understand the problem of public services as theory-founded. ... get to know the normative-legal contexts (including European law). ... overcome possible habitual barriers to access to economics and distinguish (based on scientific theory) between economization and economism. ... realistically assess the tensions, ambivalences, and conflicts between theory and practice in the context of capitalist environments with regard to the role of public enterprises in their diversity of types. ... understand in particular the relationship between economics and ethics or between economies and morals in a differentiated way and acquire appropriate access to the habitus of the ethics of responsibility of economic action on the basis of anthropological questions of existential care work.				
<b>4</b>	<b>Teaching and Learning Methods</b> lecture				
<b>5</b>	<b>Module Entry Requirements</b> none				
<b>6</b>	<b>Mode of End-Of-Module Examination</b> Written test: PO				
<b>7</b>	<b>Prerequisites for Awarding of Credit Points</b> Passing the written test.
