1 Social sciences

The bachelor's programme of social sciences comprises the fields of political science, sociology and social psychology.

From a theoretical and empirical perspective, political science examines the order and regulation of social life by generally binding decisions in the (sub-)national, European and international context (and their interactions). Sociological issues deal with the social interrelations within and between communities, companies and organisations. The subject of social psychology is the experience and behaviour of people in the social context.

1.1 Contents and study objectives

The specific profile of the graduate exists in the combination of social science and political science basics, with ensuing content-related focus on sociology/social psychology or political science, accompanied by methodical-analytical abilities of formal analysis of social science issues. The graduates can critically assess empirical studies and evaluations and in the process can also consider economic, social, political and psychological perspectives and interdependencies. They are in a position to display corresponding results for the target audience.

Graduates have competences at level 6 of the German Qualifications Framework respectively the Bachelor level of the German Qualifications Framework for Higher Education Qualifications. Intended learning outcomes are shown in the table below. On the one hand, the intended learning outcomes comprise the overarching *learning goals* that the programme envisions for the graduates. On the other hand, they include *learning objectives*, which refer to concrete activities of the students during their studies.

Graduates act...	
Professional and analytical skills	...with sound sociological, social psychological and political science expertise in order to identify and evaluate the social challenges of the future.
	<i>Students apply sociological, socio-psychological and political science basic terms and theories to the analysis of social facts and political science issues.</i>
	<i>Students apply basic knowledge of empirical social research (mathematical and statistical methods of analysis) to problems in the social sciences.</i>
	...as active users of social science theories and methods in order to analyse and deal with problems in practice.
	<i>Students transfer social science theories and/or statistical methods to practical problems and situations in sociology, social psychology and political science, taking into account the appropriateness of different methods.</i>
	<i>Students apply theories and methods of social science data collection and data analysis with consideration for possible sources of error.</i>
	<i>Students independently write an academic paper on the basis of systematised literature and data material.</i>
Communicative and cooperative skills	...as interculturally sensitised team players in order to effectively solve problems in socially sensitive situations.
	<i>Students work in a goal-oriented and cooperative manner in diverse teams.</i>
	...as critically reflective social scientists in order to positively impact on current sociological and/or political processes.
	<i>Students critically discuss recommendations for action on the basis of (also English) social science literature.</i>
Personal skills	...as independent designers in socio-scientific contexts in order to consider problems from different perspectives and to point out possible solutions.
	<i>Students independently design their learning and action processes with the inclusion of self- and external reflection.</i>
	<i>Students actively advocate responsible academic action in social science contexts, taking into account social, ethical and economic criteria.</i>

The degree course in Cologne can also include, in addition to focus on social sciences, economic, socio-psychological and other interdisciplinary areas. The connection between scientific foundation and practical orientation as well as the option to set individual priorities in the degree course, both, afford the widest variety of career prospects inside and outside the country. In the bachelor's programme, skills that prepare for a number of professional fields are acquired. These skills are not just of superior value in the private sector, but also open up other, specific professional fields for graduates: Graduates with a strong political science profile mainly find employment in institutions, parties and interest groups like citizen initiatives, associations, foundations, in ministries, public departments, supranational institutions and international organisations. Graduates with a strong sociological/socio-psychological profile have career prospects in the area of market and social research, statistical offices, social planning, public relations and human resource development as well as in non-profit-organisation, associations and the media.

With a good bachelor's degree and a corresponding prioritisation, admission in one of our master programmes "Political Science" (Master of Arts) or "Sociology and Social Research" (Master of Science) or "Sociology and Economic Psychology" (Master of Science) can be pursued.

1.2 Requirements

English language proficiency at B2 level according to the Common European Framework of Reference for Languages (CEFR) is required when applying for this degree programme. Successful students will have the following subject-related, methodical and personal strengths and aptitudes:

- good mathematical and analytical skills,
- ability to think abstractly and conceptually,
- good communication skills in German and English,
- ability to perform independent, goal-driven and result-oriented work,
- motivation and the ability to work in a team,
- a keen interest in issues from social sciences and economics.

Applicants with a foreign higher education entrance qualification must prove that they have good knowledge of German (more detailed information can be obtained from the International Office).

1.3 Programme structure and sequence

The bachelor's programme of social sciences comprises 180 credit points, is designed for a standard study period of six semesters and is made up of the following four sections:

The Core and Advanced Section with 78 credit points (CP) comprises basic modules from the domains of political science, sociology and socio-psychology, as well as modules with methodical contents. All modules in this section are compulsory.

The Supplementary Section with 24 CP contains supplementary modules of Economics, Business Administration, Economic Geography and Studies Abroad.

The Specialisation Section with 48 CP comprises either a specialisation in Sociology and Socio Psychology or in Politics. The Studium Integrale must be substantiated with 12 CP. The bachelor's thesis in the degree course of social sciences with 18 CP forms the last section.

1.4 Study Abroad Option

The WiSo Faculty offers a broad range of study abroad options within an excellent network of prestigious partner universities worldwide. The so-called Study Abroad Programme (STAP) includes ERASMUS exchanges and provides an opportunity for a single-term stay at one of the WiSo Faculty's partner universities. Successful STAP applicants benefit from direct contact and organisational support at the partner university as well as support in the organisation of the semester abroad by the International Relations Center (ZIB WiSo). Additionally, they are exempt from paying tuition fees there. The range of universities available depends on the bachelor course on which the student is enrolled – the possible options are listed in the WiSo Exchange (WEX) (access through the student's UoC account only), along with detailed information on each university.

In addition to these options offered by the Faculty, bachelor students can also apply for a non-WiSo exchange, offered by Dezernat 9 – Internationales (Central International Office of the University of Cologne) within the 'fakultätsübergreifende Partnerschaften' framework. Further possibilities are going abroad as a freemover (i.e. as a student who organises his or her stay abroad individually) or participating in short courses or summer schools offered under separate terms and conditions. Social science students can also apply to the Short Programme for Sociology in cooperation with the University of Utrecht.

1.4.1 The Faculty's Study Abroad Programme (STAP)

Bachelor students should plan their application for a term abroad at the beginning of their bachelor studies. The STAP main selection round takes place once a year with application period between December and January 15th; it allows for an application either for the fall term or the spring term of the following academic year. Detailed information on the selection criteria and the best preparation for a STAP application can be found online in the [STAP Bachelor Application Manual](#).

If there are still places available after the main selection round has been completed, another small secondary selection round will be offered between April and June 1st. In this round, students can only apply for the following summer semester.

STAP Bachelor – main selection round (fall term and spring term)

* Alternative offer: If no offer can be given at one of the five preferred universities and if slots at other universities are available.

** End of main selection round. In case any exchange slots become available after 15 March, these slots will be made available in a secondary selection round.

STAP Bachelor – secondary selection round (for spring term only)

Please note: there is no guarantee that a secondary selection round will take place every year, nor should a wide range of exchange opportunities be expected.

* Deadline for handing in preference lists (to take until 1 June); 15 June. ** Alternative offer: If no offer can be given at one of the five preferred universities and if slots at other universities are available.

1.4.2 Credit transfer options from studies abroad

The WiSo Faculty has put a lot of emphasis on internationalisation in the design of its bachelor programmes, offering broad credit transfer options for all kinds of study abroad options. Each bachelor course includes at least one "Studies Abroad" module, with a broad range of courses suitable for credit transfer. In addition, a single course-to-course credit transfer can be considered. Moreover, students have the option of crediting courses from the semester abroad as part of their Studium Integrale.

For any questions regarding credit transfer, students can contact the [ZIB WiSo](#) or the [WiSo Credit Transfer Center](#).

1.5 Module study plan sequences

Due to several factors you need to plan your studies more and more individually. This is caused for example by the fact that some Modules are solely offered in the winter or summer term. Thus, the following sequences are only recommendations, from which you can or have to diverge depending on your individual study plan.

Studium Integrale

Study plans including a semester abroad

a) Specialisation: Sociology & Social Psychology

The fifth semester is mostly suitable for studying abroad.

In view of the model study plan sequence and the credit transfer options in the supplementary section (24 CP) as well as in the Studium Integrale (6 CP) a part of the Studium Integrale and four Supplementary Modules should be positioned in the fifth semester in case of an **exemplary** stay abroad. The Specialisation Modules Practice Seminar Sociology / Social Psychology and In-Depth Seminar Sociology / Social Psychology can be moved to the fourth semester

b) Specialisation: Political Science

The fifth semester is mostly suitable for studying abroad.

In view of the model study plan sequence and the credit transfer options in the supplementary section (24 CP) and in the Studium Integrale four supplementary modules and the Specialisation Module Seminar International and Multi-level Politics (Credit Transfer) should be positioned in the fifth semester in case of an **exemplary** stay abroad. The Specialisation Modules Internship and Research Logic and Design can be positioned in the sixth and third semester.

e) General remarks

For questions about studying abroad the ZIB WiSo is at your disposal.

Additionally, it is always possible not to request a semester on leave (*Urlaubssemester*) if you spend a semester abroad such that examinations can be taken upon return to the University of Cologne (if it is individually feasible).

1.6 Modules with mid-term examinations

Some modules have courses that only run for half a term and usually with twice the normal number of classes. For these modules, the term is divided into two roughly equal halves. In fall, the mid-term usually ends at the beginning of December; in spring, it is usually in the middle or at the end of May. Often, the examinations for these courses are held mid-term, enabling students to reduce their examination load at the end of term.

The information in the campus management system (KLIPS) regarding the dates of courses and examinations is relevant in this context.

1.7 Calculation of the overall mark

The marks for each examination are determined by the respective examiners. The overall mark for the bachelor degree combines the marks for the various sub-categories, weighted based on the respective number of credit points attainable and each sub-category's contribution towards the overall mark for the examinations for which marks are given. The marks for the sub-categories are calculated as the mean of the examination results in line with the weighting for each examination in terms of the credit points it contributes to the overall mark for the examinations in the respective category for which marks are given. If the result of a module examination is calculated based on several components, the mark is calculated based on a weighting given in the module description. The overall mark for the degree is calculated as the weighted arithmetic mean of the marks for the subject categories and the mark for the bachelor's thesis. On the Social Sciences programme, the weighting for the contributions to the overall mark are as follows:

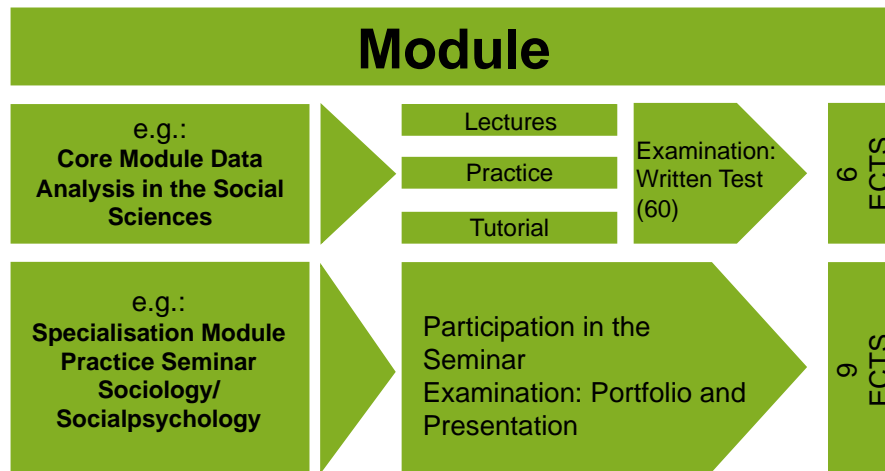

- a) Mark for Core and Advanced Section: 78 of 168 CPs
- b) Mark for Supplementary Section: 24 of 168 CPs
- c) Mark for Specialisation Section: 48 of 168 CPs
- d) Mark for Bachelor's Thesis: 18 of 168 CPs.

1.8 Modularity

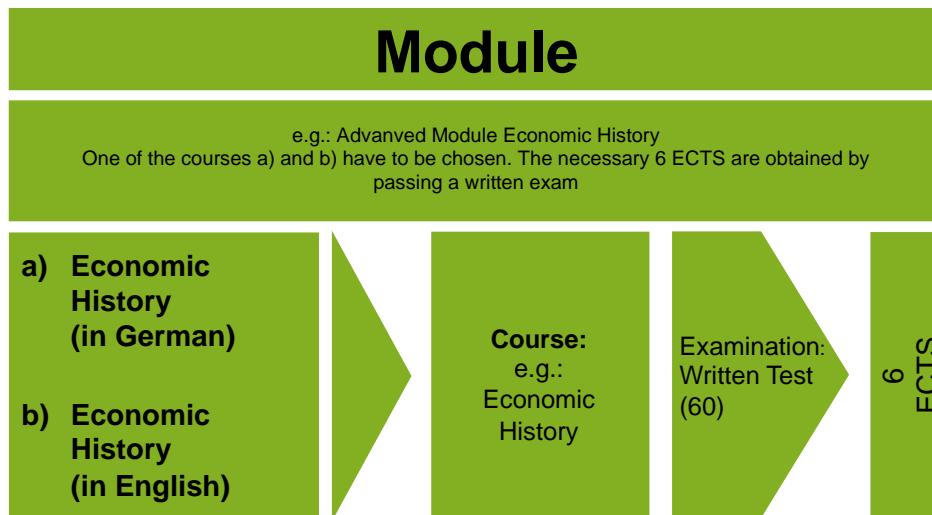

The subject categories on the bachelor programmes are divided into modules, the contents of which are presented in the module descriptions. The bachelor module catalogue can be viewed in the [download section](#) of the WiSo faculty website. Students who pass the necessary examinations are awarded credit points as proof of their successful participation in a module. The module examinations are taken at regular intervals during the programme. Each module consists of various parts and can usually be completed in one or two terms (see the "Duration" section in the module description). A module can consist of lectures, exercises and/or tutorials on the same subject. There are also modules that only comprise one type of class, e.g. a seminar. In some cases, modules offer students a choice between various courses and they are required to take one or more of them. In these cases, the examination can refer to the content of one or of several courses.

When planning your studies, please remember that not every module is offered every term. To find out whether a module is being offered, refer to the "Module availability" section of the module description.

The following examples are to be understood exclusively as illustrations of the individual scenarios; they do not necessarily include modules of the present study programme.

Scenario 1: The module can consist of one teaching and learning method or several complementary teaching and learning methods on the same topic.

Scenario 2: One of the two courses must be chosen and the exam must be passed.

Scenario 3: Several courses are combined and at the end a test on the contents of all courses is completed successfully and the CP are thus acquired.

1.9 Rules for failed attempts

Students may retake module examinations that they have failed. The number of attempts is limited to three per module.

In addition, additional three resit attempts can be granted to students at any point of the programme. Students who have accumulated at least 140 credit points are granted a further additional attempt. If a student fails an examination in the three additional attempts and the extra attempt for students with 140 points or more, they are deemed to have failed the programme at the final attempt. However, students may only be eligible for additional attempts beyond the initial three attempts if none of the first three examination attempts were failed due to cheating or to an offence. If the candidate fails a module examination three times, he or she will receive a written notification informing him or her of the options available. We recommend all students who fail the initial three attempts to seek advice from WiSo Student Service Point before embarking upon an additional attempt.

Where a module examination consists of several components, the candidate must obtain a "bestanden" (pass) mark, or at least an "ausreichend (4,0)" (sufficient) mark, in all of the examination components. All components marked "mangelhaft (5,0)" or "nicht bestanden" (fail) must be retaken.

It is not possible to retake module examinations that have already been passed.

A failed bachelor's thesis can be retaken once, with a new topic. Students must register for their second attempt within six months of the result of their first attempt being announced.

2 Support for students

2.1 Course registration in KLIPS 2.0

KLIPS 2.0 is the central campus management system of the University of Cologne. At the WiSo faculty, KLIPS 2.0 serves as a student organization tool. Students should use it as an online course catalogue, for registration and deregistration of courses and examinations, as well as an overview of the complete study programme and calendar. Information on current dates and deadlines of the WiSo faculty, as well as video tutorials and FAQs about KLIPS can be found on the homepage of WiSo-KLIPS-Support. If you have further questions, feel free to contact WiSo-KLIPS-Support via e-mail (klips-wiso@uni-koeln.de). For account questions, contact the central KLIPS support.

2.2 Exam registration in KLIPS 2.0

Examinations on the various programmes are always managed via KLIPS 2.0. Students must register for them within specified deadlines. Please note that registration for courses without restriction on participation via KLIPS and registration for the corresponding module examinations are two completely separate processes. In the case of courses which are subject to a restriction on participation, an examination registration is generally only possible if a registration for the course has been submitted beforehand. Most examinations in written test form are offered twice per term. Often, this will be to “space out” the dates, i.e. students can choose the date that best fits their examination schedule. In some cases, however, the second examination may be a genuine repetition of the first, depending on the department/institute concerned.

All WiSo Faculty examination candidates are entitled to see their examination papers after they have been marked. For more information, please visit the WiSo Examination Office website.

2.3 Subject-specific and examination advice

General advice for students, especially regarding study options and programme requirements, is available from WiSo-Student Service Point (WiSSPo) for all programmes at the WiSo Faculty. The WiSSPo also offers subject-specific recommendations for students' study plans for the first semester plus information on how the individual programmes are structured. It also issues transcripts of records in German and English as well as ranking certificates. The WiSSPo is also the first contact point students should refer to if they have any other questions or problems concerning their studies. The centre can be contacted by telephone, in person or by email. The opening hours and contact data can be found on the corresponding webpage.

Subject-specific advice is provided during the designated times by the University's faculty members and associated teaching staff ("akademische Mitarbeiterinnen und Mitarbeiter") involved in the teaching on the programme. The designated times are announced by means of notices in the institutes and on the departments'/institutes' websites.

Legally binding information concerning examinations and examination procedures is provided by the WiSo Faculty Examination Office. It also issues letters of assignment to the appropriate term of the programme. All the necessary information, contact details and opening hours can be found on the corresponding webpage.

2.4 Academic Working

To support the academic writing of term and final papers, the University of Cologne offers various courses to practice the process of academic writing by students. These include:

a) Writing advice/consultation

The Kompetenzzentrum Schreiben, the Professional Center, the Kölner Studierendenwerk and the programme SchreibArt offer advice as well as courses related to the issues that arise when writing an academic paper.

b) Literature research

The university library offers various courses especially for researching literature.

c) Text processing and literature administration

The Regionales Rechenzentrum provides courses regarding text processing and literature administration.

Students can register for the courses of the Professional Center and the SchreibArt programme in the **Studium Integrale** under „Kompetenzen für das Studium“ (competencies for studies). There are even more offers made by the WiSo Faculty that can be elected in the **Studium Integrale**. Hence, these courses can be credited for your studies.

2.5 Other sources of information and advice

International students who study at the WiSo Faculty for part of their programme can turn to the International Relations Centre (“Zentrum für Internationale Beziehungen” or “ZIB”) for help with any questions they have. Cologne University students preparing to study abroad can also contact the ZIB for support. The Centre also runs a variety of summer schools, short programmes and Business English courses. The services, courses and people to contact can be found on the corresponding webpage.

The Faculty’s Credit Transfer Centre (“Zentrum für die Anrechnung auswärtiger Leistungen”) is responsible for recognising credits accumulated in other institutions. This applies both to credits students have gained at other higher education institutions in Germany or abroad prior to studying at the WiSo Faculty, and to (advance) transfer of credits that students plan to accumulate abroad or have already accumulated abroad as part of a WiSo Faculty programme. This system eliminates the need to make individual inquiries to departments/institutes and examination offices. Students can find out everything they need to know about the transfer process on the corresponding webpage.

The WiSo Career Service offers advice and support for students from the WiSo Faculty looking for an internship or profession that is right for them. It also helps them as they plan their career and apply for jobs. In addition, the WiSo Career Service organises seminars, presentations and special events in cooperation with employers and external and internal experts. It also works with other partners in the Faculty and the University to support and guide students as they decide on a career path.

The WiSo IT Service runs regular courses dealing with standard software and field-specific programs.

In case of study-related or personal difficulties, the psychosocial counselling (“Psycho-Soziale Beratung”) of the Kölner Studierendenwerk can be called upon. In addition to psychological and social counselling, it also offers writing and learning counselling and support for pregnant women and students with children.

As a further offer, there is Nightline Cologne, the listening and information telephone of students for students. It is available to all students at Cologne universities and colleges.

The WiSo student council represents the interests of all students from the WiSo faculty. In addition to advice from fellow students it also provides a variety of useful services for studying at the WiSo faculty. Any information can be found at wiso-buero.uni-koeln.de or by directly writing an email to wiso-buero@uni-koeln.de.

3 Module tables and descriptions

3.1 Core and Advanced Section

In accordance with Section 30(1), No. 1 of the Examination Regulations, students must accumulate 78 CPs in the Core and Advanced Section.

Group	Module	CP	CC/EC	Reqd. CP
Core and Advanced Section	CM Introduction to Microsociology	6	CC	78
	CM Introduction to Macrosociology	6	CC	
	CM Social Structure Analysis	6	CC	
	CM Introduction to Psychology	6	CC	
	CM Comparative Analysis of Political Institutions	6	CC	
	CM Comparative Political Economy	6	CC	
	CM International Relations	6	CC	
	CM European Politics	6	CC	
	CM Methods of Empirical Social Research	6	CC	
	CM Ethics and Fundamentals of Academic Work in Social Sciences	6	CC	
	CM Data Analysis in the Social Sciences	6	CC	
	AM Statistics (SoWi)	12	CC	

3.2 Supplementary Section

In accordance with Section 30(1), No. 2 of the Examination Regulations, students must accumulate 24 CPs in the supplementary section.

Group	Module	CP	CC/EC	Reqd . CP
Supplementary Section	CM Fundamentals of Economics	12	EC	24
	CM Introduction to Business Administration	6	EC	
	AM Ecological Economics	6	EC	
	AM Economic History	6	EC	
	AM Public Economics	6	EC	
	SuM Media Order	6	EC	
	SpM Economics and Society	6	EC	
	SpM Media and Technology Management I	6	EC	
	SpM Media and Technology Management II	6	EC	
	CM Accounting I	6	EC	
	CM Corporate Development I	6	EC	
	CM Finance I	6	EC	
	CM Marketing I	6	EC	
	CM Supply Chain Management I	6	EC	
	SM Economic Geography I	6	EC	
	SpM Economic Geography II	6	EC	
	SuM Co-operative Economics	6	EC	
	SuM Solidarity-based Economics	6	EC	
	CM Corporate and Business Ethics	6	EC	
	SuM Entrepreneurship	6	EC	
	Studies Abroad I (SoWi)	6	EC	
	Studies Abroad II (SoWi)	6	EC	
Studies Abroad III (SoWi)	6	EC		
Studies Abroad IV (SoWi)	6	EC		

3.3 Specialisation Section

In accordance with Section 30(1), No. 3 of the Examination Regulations, students must accumulate 48 CPs in the specialisation section.

Group	Module	CP	CC/EC	Reqd. CP
Sociology/ Social Psychology	SpM Practice Seminar Sociology/Social Psychology	9	CC	48
	SpM Seminar Actions/ Norms/ Networks	6	CC	
	SpM Seminar Education/ Work/ Organisation	6	CC	
	SpM Seminar Family/ Ageing/ Migration	6	CC	
	SpM Seminar Culture/ Values/ Cohesion	6	CC	
	SpM In-depth Seminar Sociology/ Social Psychology	6	CC	
	SpM Internship: Sociology and Social Psychology in Practice	9	EC	
	SpM Occupational Fields: Sociology and Social Psychology in Practice	9	EC	
Political Science	SpM Research Logic and Design	9	CC	48
	SpM Political Institutions	6	CC	
	SpM Representation and Elections	6	CC	
	SpM Comparative Political Economy	6	CC	
	SpM International and Multi-level Politics	6	CC	
	SpM Specialisation Political Science	6	CC	
	SpM Internship: Political Science in Practice	9	EC	
	SpM Career Perspectives: Political Science in Practice	9	EC	

3.4 Studium Integrale

All of the Faculty's bachelor programmes include an interdisciplinary component, known as the Studium Integrale, in which students accumulate 12 credit points. The Studium Integrale is a university-wide and interdisciplinary component of the courses of study in which academic and professional competences are imparted. The Studium Integrale has both theoretical and practical content, enabling students to focus on more academic aspects or topics related to their future careers enhancing their employability. It aims to teach and develop skills that go beyond subject-specific knowledge or that are related to basic academic and personal traits: scientific curiosity, systematic and analytical thinking, and ability to deal with complexity, a solution-minded outlook plus other abilities such as teamwork and foreign language skills.

The Studium Integrale courses are run jointly by the faculties and the University's Professional Centre. They enable students to pursue their own interests in more depth, gain an insight into other subjects and departments, attend courses dealing with issues of relevance to society, acquire skills relevant to their future careers and attend language classes. The "Universitas" segment offers formats especially designed for the Studium Integrale, such as lecture series on societal issues with related workshops. In addition, the Studium Integrale offers students assistance with their learning and studying, helping them with such questions as how to write an academic paper or how to conduct literature reviews. Periods of training abroad and work experience can also be credited in the Studium Integrale. The Studium Integrale carries 12 credit points in total and formally counts as a module. There is no restriction on the number of attempts possible for Studium Integrale examinations.

Any credit points attained in the Studium Integrale over and above the 12 credit points specified in the study structure are shown on the transcript of records.

3.5 Bachelor's Thesis

The bachelor's thesis carries 18 CPs and is written at the end of the programme. Its aim is to illustrate that the candidate is capable of working and reflecting independently on a specific problem related to the subject matter covered on the programme, using the necessary methods and within a specified period. The topic of the bachelor's thesis in the degree course of Social Sciences must be taken from one of the groups in the Supplementary and Specialisation section. The evaluation includes a mandatory thesis-seminar amounting to 6 CPs. At the right time before the start of each semester, the examiner determines the conditions which are applicable with respect to the thesis-seminar for all bachelor's theses registered in this semester.

The bachelor's thesis can also be written in the form of a group work, if the contribution of each individual examinee can be clearly differentiated and evaluated. Individual contribution can be attributed on the basis of objective criteria, which enable clear differentiation, for example by specification of sections, page numbers or emphasis on content. The overall effort required for a group work must extend appropriately beyond the requirements related to an individual task. Depending on the degree of difficulty and content, group work for the individual(s) must be measured such that it corresponds to the requirements for an individual and independent exam performance. The individual contribution of each individual must meet the requirements of a bachelor's thesis.

At least 100 credit points should have been acquired to register for a bachelor's thesis. The working time for the bachelor's thesis is a maximum of 12 weeks starting with the disclosure of the topic. The bachelor's thesis should basically not exceed 40 pages. If all the examinations except for the bachelor's thesis have been taken, the bachelor's thesis must be officially started within one year. Detailed and additional information on the bachelor's thesis is available in the examination regulation.

3.6 Module Descriptions

3.6.1 Core and Advanced Section

CM Introduction to Microsociology					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1320BBEM1	180h	6	German	every 2nd term - winter term	1 Term
1	Courses Introduction to Microsociology		Contact Hours 60h	Self-Studies 120h	Course Language German
2	Module Content <ul style="list-style-type: none"> • Microsociological questions • Anthropological foundations • Sociological explanations • Analysis of social action / theories of action • Analysis of strategic interaction / game theory • Collective action and social norms • Social networks 				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... know and understand basic theories in the area of microsociology. ... apply theories in pre-structured contexts (e.g. case studies) in a solution-oriented way. ... analyse (current) questions and challenges within the framework of pre-structured contexts. ... develop an understanding of the impact of decisions that take into account environmental, economic, social or ethical criteria. ... question and critically reflect on current social developments.				
4	Teaching and Learning Methods lecture tutorial				
5	Module Entry Requirements none				
6	Mode of End-Of-Module Examination Written test: WT (60)				
7	Prerequisites for Awarding of Credit Points Passing the module examination

valid for students of the ER 2021 (enrolment from winter semester 2021/22)

	Bachelor of Arts Medienwissenschaft: Media and Technology Management
9	Module Manager Dr.' Julia Fath
10	Miscellaneous In microeconomics, the preparation of classes is carried out with the help of e-lectures and e-homework. Both classes are tested in the same exam simultaneously!

CM Introduction to Business Administration					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1271BBEDB1	180h	6	German	every term	1 Term
1	Courses Introduction to Business Administration		Contact Hours 0h	Self-Studies 180h	Course Language German
2	Module Content <ul style="list-style-type: none"> • Corporate Strategy (competitive advantages, internal and external analysis etc.) • Finance (financing, balance sheets, asset management etc.) • Marketing (consumer analysis, marketing mix, brand management etc.) • Process Design (supply chains, order quantities, theory of constraints etc.) • Human Resources Management (recruiting, personnel development, personnel management etc.) 				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... know and understand basic theories in the area of business administration. ... use selected methods and tools in business administration (e.g. analyses dealing with the strategic evaluation of resources, derivations of basic financial figures, applying a marketing mix, identification of bottleneck resources using process analyses, as well as determining the personnel requirements with the help of a simple formula) in a solution-oriented way. ... design their learning and working processes independently.				
4	Teaching and Learning Methods lecture				
5	Module Entry Requirements none				
6	Mode of End-Of-Module Examination Written test: WT (60)				
7	Prerequisites for Awarding of Credit Points Passing the module examination				
8	Other Programmes that Use the Module Bachelor of Science Volkswirtschaftslehre: Specialisation Section Track Economics Specialisation Section Track Social Sciences Bachelor of Science Sozialwissenschaften: Supplementary Section Social Sciences				
9	Module Manager Prof. Dr. Andreas Fügener				
10	Miscellaneous Students will work through the contents of the course on their own by watching short videos, working on practical examples and reading through the provided e-books. They will apply their newly-acquired knowledge in integrated online exercises, and check their learning progress after each course module by taking an online test. Except for the written end-of-module examination, the entire course will be online-based. The content will be taught through videos. Students will independently work on integrated exercises. Tests will be conducted online.				

AM Ecological Economics					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1289BAMEE1	180h	6	English	every 2nd term - winter term	1 Term
1	Courses Ecological Economics		Contact Hours 45h	Self-Studies 135h	Course Language English
2	Module Content This module covers selected issues in ecological economics, i.e. the economics relevant to "space ship Earth". Ecological economics recognises the finiteness of the planet regarding physical (material and energy) resources and limits to absorptive capacities within ecosystems. The module includes natural science foundations, especially the laws of thermodynamics and their relevance for economics. It covers the role of energy conversion in wealth creation, and the role of entropy production in environmental impacts. Implications regarding energy and environmental regulation are discussed.				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... analyse (current) questions and challenges within the framework of pre-structured contexts. ... communicate continuously and purposefully within teaching and learning groups. ... communicate in English. ... develop an understanding of the impact of decisions that take into account environmental, economic, social and/or ethical criteria.				
4	Teaching and Learning Methods lecture practice				
5	Module Entry Requirements Recommendation: CM Microeconomics and CM Macroeconomics or CM Fundamentals of Economics				
6	Mode of End-Of-Module Examination Written test: WT (60)

SpM Economics and Society					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1289BSECS1	180h	6	English	every 2nd term - summer term	1 Term
1	Courses Inequality and Intergenerational Mobility		Contact Hours 45h	Self-Studies 135h	Course Language English
2	Module Content This module will revolve around questions distributional inequality and inequality of opportunity. The first aim is to learn about some of the theoretical models and empirical stylized facts related to inequality and intergenerational mobility. Second, students are supposed to gain a better understanding of the mechanics through which inequality is generated within and across generations. Ideally, the module brings students to the frontier of this important research field and enables them to form an opinion about which policies might be appropriate to fight intergenerational cycles of poverty.				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... analyse (current) questions and challenges within the framework of pre-structured contexts. ... establish and evaluate independently developed positions. ... question and critically reflect on current social developments.				
4	Teaching and Learning Methods lecture practice

SpM Internship: Sociology and Social Psychology in Practice					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1320BSSSP1	270h	9	German and English	every term	1 Term
1	Courses Internship Sociology and Social Psychology in Practice		Contact Hours 4h	Self-Studies 266h	Course Language German and English
2	<p>Module Content</p> <p>In the professional internship, students of the Bachelor program Social Sciences with a focus on sociology and social psychology gain their first professional experience in a social science field of work. The professional internship is intended to provide an insight into the professional and working world of a social scientist and offers opportunities to reflect on one's own sociological/social psychological skills. For this purpose, a variety of practical fields in which social science thinking and acting is applied are suitable, e.g. in companies, in non-university market and social research, in non-governmental organisations and associations, in journalism or public relations, in health care, in trade unions or other interest groups, in administration or in the arts and culture.</p> <p>In addition to the full-time internship of at least six weeks, the module includes a mandatory accompanying course to prepare the final report. The final report should reflect the importance of the university study contents in the respective context of the internship.</p>				
3	<p>Learning Objectives</p> <p>Students...</p> <ul style="list-style-type: none"> ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... analyse (current) questions and challenges within the framework of pre-structured contexts. ... develop an understanding of the impact of decisions that take into account environmental, economic, social and/or ethical criteria. ... design their learning and working processes independently. ... reflect their own performance and implement feedback constructively.

SpM Occupational Fields: Sociology and Social Psychology in Practice					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1320BSBSP1	270h	9	German and English	every 2nd term - summer term	1 Term
1	Courses Occupational fields of sociologists and social psychologists		Contact Hours 30h	Self-Studies 240h	Course Language German and English
2	Module Content Students become familiar with selected occupational fields or the content of certain professional fields with a social science reference, identifying the connection between theory and practice in the social sciences. Students should recognize how sociological or social psychological knowledge is applied in practice. They gain insight into the labour market and the professional activities of sociologists/social psychologists. During the course, excursions to relevant organisations or institutions can take place, practice representatives/alumni from relevant fields of practice can be invited to give lectures or expert interviews can be conducted by the students.				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... analyse (current) questions and challenges within the framework of pre-structured contexts. ... develop an understanding of the impact of decisions that take into account environmental, economic, social and/or ethical criteria. ... design their learning and working processes independently. ... reflect their own performance and implement feedback constructively.				
4	Teaching and Learning Methods seminar				
5	Module Entry Requirements none				
6	Mode of End-Of-Module Examination Combined examination: PRES, PO				
7	Prerequisites for Awarding of Credit Points Passing the module examination				
8	Other Programmes that Use the Module Bachelor of Science Sozialwissenschaften: Specialisation Section Social Sciences				
9	Module Manager ISS - Institut für Soziologie und Sozialpsychologie				
10	Miscellaneous				

SpM Research Logic and Design					
Module Code 1335BSFLD1	Workload 270h	ECTS Credits 9	Module Language German and English	Module Availability every 2nd term - winter term	Duration 1 Term
1	Courses Seminar Research Logic and Design		Contact Hours 30h	Self-Studies 240h	Course Language German
2	Module Content <ul style="list-style-type: none"> • Philosophy of science: epistemology, ontology, and methodology • Theoretical approaches and basic methods of political science • Elements of a research design • Causality and causal inference • Classic and contemporary studies in political science 				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... know and understand basic theories. ... know and understand common methods. ... communicate continuously and purposefully within teaching and learning groups. ... develop an understanding of the impact of decisions that take into account environmental, economic, social or ethical criteria. ... design their learning and working processes independently.				
4	Teaching and Learning Methods seminar				
5	Module Entry Requirements none				
6	Mode of End-Of-Module Examination Written test: PO				
7	Prerequisites for Awarding of Credit Points Passing the module examination

SpM Internship: Political Science in Practice					
Module Code	Workload	ECTS Credits	Module Language	Module Availability	Duration
1335BSPSP1	270h	9	German and English	every term	1 Term
1	Courses Internship Political Science in Practice		Contact Hours 4h	Self-Studies 266h	Course Language German and English
2	Module Content In the professional internship, students of the Bachelor program Social Sciences with a focus on political science gain their first professional experience in a social science field of work. The professional internship is intended to provide an insight into the professional and working world of a social scientist and offers opportunities to reflect on one's own political science skills. For this purpose, a variety of practical fields in which social science thinking and acting is applied are suitable, e.g. in companies, in non-university market and social research, in non-governmental organisations and associations, in journalism or public relations, in health care, in trade unions or other interest groups, in administration or in the arts and culture. In addition to the full-time internship of at least six weeks, the module includes a mandatory accompanying course to prepare the final report. The final report should reflect the importance of the university study contents in the respective context of the internship.				
3	Learning Objectives Students... ... know and understand the relevant methods and theories for the points mentioned above under „Module content“. ... analyse (current) questions and challenges within the framework of pre-structured contexts. ... develop an understanding of the impact of decisions that take into account environmental, economic, social or ethical criteria. ... design their learning and working processes independently. ... reflect their own performance and implement feedback constructively.
