INNOVATION FOR SOCIETY

MASTER OF SCIENCE

BUSINESS ADMINISTRATION

SUPPLY CHAIN MANAGEMENT

SUPPLY CHAIN MANAGEMENT

A supply chain consists of a string of companies. The major in SCM addresses the relevant intra- and cross-company issues in seeking to solve the manifold challenges of global supply chain management. Students learn about field-tested concepts as well as the latest research findings and how they can be applied in practice. Many modules are delivered in English language.

KEY ISSUES

- Gain in-depth knowledge of customer strategy development, logistics and production management, purchasing, customer service management, internal and inter-company planning, optimisation and management accounting
- Analyse complex processes before implementation
- Explore how Industry 4.0 influences supply chain process planning
- Find out how companies can remain constantly innovative
- Take the next step in your career as a future executive in business consultancy, product and project management, development, purchasing, logistics, production or services

CAREER OPPORTUNITIES

The major in **Supply Chain Management** is directed at future executives in, for example, the fields of business consultancy, product and project management, development, purchasing, logistics, production and services. The **M.Sc. in Business Administration** widens the knowledge gained in your bachelor studies, giving you advanced expertise in your chosen field.

As **the University of Cologne** is state-funded, there are no tuition fees, just a biannual **“semester contribution”** of slightly more than **250 euros**. This includes the “semester ticket” for public transport throughout Cologne’s home state of North Rhine-Westphalia. **So, with us, you can invest in an excellent education – and your future – without paying a fortune.**

PRACTICAL EXPERIENCE

As a student of the **WiSo Faculty**, you gain from an approach that is based on theory and methods, combining both research and teaching with practical elements. The teaching at our Faculty has benefited from many years of experience in working with companies and visiting lecturers from different professional fields. Many of the visiting lecturers are professionals and managers who bring important

industry experience to the programmes, resulting in sector-specific, up-to-date programme content for our students. This ensures that the programmes reflect the real world and that they thus combine the practice and the theory, whilst also promoting knowledge-sharing between companies and you, the student.

“For a supply chain to work well, every single function within the company – development, purchasing, logistics, production, customer service, etc. – has to be excellently managed.”

Ulrich Thonemann, Professor and Director, Department of Supply Chain Management & Management Science

INTERNATIONAL

Since many of our courses are delivered in English, you can complete the master programme mostly in English. For our **Master of Science in Business Administration**, we have applications from a large number of different nationalities, which means you can be sure of an international and intercultural environment. Our cooperation agreements with an extensive number of excellent partner universities

worldwide provide you with attractive options to spend a term abroad. In addition, you may enrich your studies through our short programmes in **New York and Hong Kong** or through a summer school.
