In addition to economics and management issues in healthcare, the M.Sc. in Health Economics covers social policy aspects and relevant medical questions with regard to patient safety, medical ethics and biostatistics. Students also have the opportunity to take a more indepth look at specific areas of business management, such as corporate and HR development, supply chain management and market research.

**KEY ISSUES**

- Discover the key national and international players in healthcare
- Analyse illnesses that play a significant role in health economics and assess how appropriate healthcare management might help to tackle them
- Find out which aspects of evidence-based medicine are crucial when deciding on a therapy
- Evaluate health policy measures and ethical implications of structures and courses of action
- Learn which factors are relevant when assessing conclusions and evaluating methodological designs in the context of clinical studies
- Take your next step up the career ladder to a senior position in any of a wide range of healthcare system institutions

**CAREER OPPORTUNITIES**

In terms of job prospects, Cologne is an interesting location for students of health economics. Many hospitals, wellknown pharmaceutical companies, insurance and consulting firms are located in Cologne and the surrounding region. We help you forge ties with our partners even before you have completed the programme. Upon graduation from the interdisciplinary Master in Health Economics programme, you will be ideally prepared to work in public and private healthcare institutions. You will be able to take a step up the career ladder to a senior position in any of a wide range of healthcare system institutions. Your work will include tasks in the field of management, administration or in associations as well as health policy management institutions. Further professional prospects for graduates of this interdisciplinary programme include activities in academic teaching and health, as well as health policy research.

**DOUBLE DEGREE OPTION**

In addition to our standard master programme, students have the option to take the Double Master’s Programme in Health Economics and Management in cooperation with Maastricht University. Students on this international study programme spend one year at the WiSo Faculty and one year at the partner university. After successful completion of the programme, you awarded two degrees.

**INTERNATIONAL**

Many of our courses are delivered in English. Our extensive number of cooperation agreements in the area of Business & Economics provides you with attractive options to spend a term abroad around the world. More information and options at international: www.international.wiso.uni-koeln.de or Google “WiSo international”

“Health Economics is a pioneering field, bringing together the perspectives of different stakeholders from the realms of management, media and policy making.”

Ludwig Kuntz, Professor and Director, Department of Business Administration and Health Care Management
